

Instagram Is Eating My Daughter... and My Son Won't Stop Playing Grand Theft Auto

PIN's Annual Brunch Will Feature Dr. Leonard Sax, M.D., Ph.D.

What do parents need to know about Twitter, Instagram and other social media tools their kids are using? What are kids really doing online and on their smart phones? How can parents effectively monitor this technology? Which video games are OK and which are not? How much video game time is too much? Dr. Sax will answer these questions and more, and empower parents with effective strategies for addressing these topics at home.

Parents of elementary, middle and high school students are encouraged to attend.
